BTEC Level 2 First Award in Information and Creative Technology

The following is a list of activities you may like to do during your summer holidays, in preparation for studying BTEC Information and Creative Technology.

If you have completed GCSE ICT, a good starting point is to re-read some of your old work or the text book.

A basic knowledge of how technology systems work can be advantageous.

For example:

- Hardware
- Software
- Use of on-line services
- Protection of Data

There are opportunities to develop digital products like animation and graphical design.

A good website for this is:
