

16 to 19 Tuition Fund for academic year 2023 to 2024

The College has received funding from the Department for Education to enable additional small group support to some students.

This takes the form of:

- Small group sessions to other targeted students who have an identified need for additional help throughout the year.
- Individual and small group support to targeted students for mentoring and subject support

There will also be further sessions to help students with their English and vocational subjects. These will assist with topics such as understanding the task correctly, how to approach the tasks, how to organise time efficiently and helping with planning.

Initially students will be prioritised for help based on GCSE English and Maths scores, Level 2 vocational students, other students with identified needs.
